- ❖ User interface and experience design

## EDUCATION

### Tampere University, Finland

M.Sc in Software, Web & Cloud, Computing Science  
2023 - Current

## PROJECTS

### Uni Hacks - Smartphone-Based University Utility App

An android application that makes student's campus life easy and smart. Solve daily varsity life's problems of students like food, printing, attendance, finding vacant rooms, etc.

**Project Link-** <https://github.com/aidul23/Uni-Hacks>

### **eDU - Interactive e-Learning App for Children**

An android based application that has a unique ui for children. Design and developed mostly the frontend and business logic of that application. Use Java as a programming language and Firebase as database.

**Project Link-** <https://github.com/NiazSagor/OFK-Template>

### **Flyerz**

A multi-vendor shopping application with delivery services. Here I use Google Maps API and 3rd party payment gateway. I worked on this project in my internship period in BroTech IT.
